

Gracious Precious Ogyiri Asare

201-359-1274 | gpoa@bu.edu | [linkedin.com/in/gpoa](https://www.linkedin.com/in/gpoa) | github.com/sheisgracious

Motivated software engineer with a strong foundation in full-stack development and DevOps. Passionate about innovation and entrepreneurship, I am dedicated to creating impactful, user-centric solutions, thriving in collaborative, dynamic environments.

EDUCATION

Boston University

Boston, MA

Bachelor's degree in Computer Science, Minor in Hospitality Administration

Expected graduation: May 2026

- Dean's List distinction
- Relevant courses: Computer Systems, Functional Programming, Combinatoric Structures, Probability in Computing, Data Structures & Algorithms

EXPERIENCE

Tech Developer Intern

May 2024 – Present

Sponsors for Educational Opportunity

Remote

- Completed 300 hours of rigorous software engineering training focused on data structures, algorithms, and full-stack web development.
- Enhanced software development skills by collaborating in Agile (Scrum) teams to design, test, and deploy applications.
- Engaged actively in long-term career and mentorship programs to develop professional and practical skills.

Bits Lead

January 2024 – Present

Boston University's Girls Who Code

Remote

- Increased membership by 40% in Bits & Bytes Program that provides free coding lessons to kids in 3rd-5th grade.
- Managed 10 facilitators, organizing weekly meetings and designing engaging syllabi for Scratch and Python lessons, to achieve an 80% student retention rate.
- Collaborated with fellow e-board members to organize events and represent at school fairs, boosting engagement.

PROJECTS

Workout and Playlist Generator | *Python, Flask, React, HTML/CSS, Firebase*

- Collaborated with a cross-functional team on back-end development, integrating RESTful APIs, and front-end design.
- Implemented Google OAuth for user authentication and integrated Firebase for real-time data storage, enabling users to save and access information seamlessly.

Stock Portfolio Tracker | *Python, Flask, SQLite, HTML/CSS, GitHub Actions, Bootstrap, REST APIs*

- Enhanced stocks decision-making for users by integrating financial APIs to deliver real-time stock information.
- Led DevOps and QA efforts, optimizing CI/CD pipelines and achieving comprehensive test coverage.

HeadAid- Migraine Tracker | *Swift, CoreML, HealthKit, SiriKit*

- Conceptualized and developing a migraine tracking app with CoreML to provide personalized health insights based on users' migraine triggers.
- Integrated HealthKit, allowing seamless data synchronization and SiriKit, enabling users to log symptoms through voice commands, improving accessibility.

CrowdSync- Events Finder | *Python, Flask, JavaScript, HTML/CSS, Ticketmaster API*

- Innovated an intuitive platform for event discovery with alternative ticketing options to enhance user experience in event search.
- Contributed to front-end development, and streamlined the development process by implementing CI/CD pipelines, automating testing and deployment, and ensuring faster web app release.

TECHNICAL SKILLS

Languages: Python, HTML/CSS, Swift, MySQL, JavaScript, OCaml

Frameworks: SwiftUI, Flask, TensorFlow, CoreML

Developer Tools: Git, VS Code, PyCharm, Xcode, Figma, MySQL Workbench, CI/CD tools, MongoDB

Libraries: Pandas, NumPy, Matplotlib

LEADERSHIP/OTHER

ESL/Literacy Tutor

Chelsea, MA

Intergenerational Learner's Program

- Facilitated ESL lessons for 30+ non-English speakers in local area, applying innovative and inclusive teaching methods.

Founder/President

Rophe (fka. JewelsByGracious)

- Founded a jewelry business aimed at inspiring and communicating mental wellness.
- Developing marketing strategies and manage operations to obtain a 40% increase in sales.
